

Nurture Program Level 3 Application Process

- 1) Fill out the Level 3 application and the appropriate contextualization worksheet (if you will be working primarily with Muslims, please fill out the Muslim contextualization questions; if you will not be working with Muslims, please fill out the general contextualization questions). If you see yourself ministering in a primarily Muslim context, please read through the Boundaries document.
- 2) Email the reference form to three different references and have them send it to nurtureprogram@hopeinGod.org.
- 3) Once the GO Dept receive your application and contextualization worksheet we will set up a Level 3 interview with the campus-specific GO Team. We will need to have all references and application documents at least one week prior to the GO Team interview.
- 4) After the GO Team interview Pastor Todd will communicate whether or not you have been approved as global partners or if there are any additional steps for you to become a global partner.

Note: Since both husband and wife will be considered global partners, we do require that both spouses individually fill out a Level 3 application and the contextualization worksheet. Likewise, each will need to have three different references.

For the joy of all peoples,

- Bethlehem Global Outreach Department
